Online Safety - Omegle

It has become apparent that some of the children have been accessing a website called Omegle. This is a website which pairs the user up with complete strangers who they can then talk to or share videos with in an unmonitored way. Omegle is aimed at adults but there is nothing stopping anyone under the age of 18 from getting onto the site. Predators have been known to use Omegle so please talk to your child about the dangers of visiting it. Also, please remind your child about not talking to people they don't know when online and of the importance of telling an adult if they see, read or receive anything that makes them feel uncomfortable. If possible, supervise your children when they are online and be aware of the websites they visit.
